DETAILED ACTION

Allowable Subject Matter

Claims 1-37, 74 and 75 are allowed.

The following is an examiner's statement of reasons for allowance:

Applicant's arguments, see Remarks, filed 5/17/2007, with respect to claim 1 have been fully considered and are persuasive.

The primary reason for the allowance of the claims is the inclusion of the limitation "wherein the first material layer is adapted to protect the second electrode from etching when the sacrificial layer is removed using the etchant", in all of the claims which is not found in the prior art references. The recited functional language, as argued by the Applicant's, does contribute to structural limitations to the claims by requiring the layers to have specific properties essential to the claimed invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
